-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Response to Amendment

The examiner acknowledges the cancellation of claims 1-28, as well as the addition of claims 29-31.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

Claims 29-31 are rejected under 35 U.S.C. 102(e) as being anticipated by Benett (US 6,585,264). Benett discloses an electronic gaming device and method wherein a player places a wager, a plurality of symbols are arranged and displayed, including wildcard symbols, wherein said wildcard symbols are expandable in a plurality of directions. The player is then awarded based on various symbol combinations. The direction of the wildcard symbol expansion may be upwards, downwards, leftwards, rightwards or diagonally from the symbol position in which the wildcard symbol appears (see Figs. 3-8). Each of the symbols has a predetermined movement pattern, and are therefore expandable in a direction associated with the symbol (col. 1, lines 62-65).

Art Unit: 3714

Upon completion of the symbol expansion process, a player may then be awarded a prize for obtaining a winning symbol combination (col. 2, lines 30-32).

Column 3, lines 43-51, describe the gaming method as upon the occurrence of a wildcard symbol, referred to by Benett as a chess symbol, the wildcard symbol will "make one move, i.e. from its initial position to a following display position, according to its normal chess movement pattern. If there is more than one direction in which such a move can be made, then, initially, one direction of movement is randomly selected by the controller 44 of the gaming machine 10. As the chess piece moves to each position in its pattern, it being understood that there is an underlying symbol at each such position, it changes the underlying symbol to that chess piece. When it has completed its move, all wins will be paid in which one or more of the chess pieces substitutes".

Regarding the limitation of claim 31, wherein the method described above further comprises a wildcard symbol expands N symbol position, from the symbol position in which the wildcard symbol appears towards the predetermined direction(s) assigned to the wildcard symbol, with N calculated in one of the following manners; N is a fixed number, N is a random number, or N is a random number selected from a range of numbers, Benett discloses that the number of symbols positions that the wildcard symbol expands into may be randomly determined (col. 3, lines 43-51).

Response to Arguments

Applicant's arguments with respect to claims 1-28 have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
